REMARKS

The above-described amendments to the specification are made to conform the identification of the figures with the formal drawings submitted concurrently herewith. The amendment to the drawings was previously submitted in the parent application (U.S. Patent Application No. 08/474,397, now U.S. Patent No. 5,854,800) in an Amendment and Response on June 26, 1997 and entered by the Examiner. This change is reflected in the formal drawings submitted herewith. No new matter is added by way of this amendment. Furthermore, no additional search or examination is necessitated by this amendment, nor is any substantial amount of additional work required on the part of the Patent Office or the Examiner. Therefore, Applicant respectfully requests entry of this amendment pursuant to 37 CFR § 1.312.
